- Learners gain expertise in managing GST returns, generating e-Way bills, and e-Invoicing.
- The tool offers real-time practice to ensure understanding of GST compliance.
- Interactive training helps learners efficiently handle GST processes in real-world scenarios.

Stage 2: Interview Training

Duration:
1 Month

Day Schedule:
3 Hours/ Day

01 Program Module

- **Just A Minute Sessions:** JAM (Just A Minute) sessions are dynamic training activities that improve communication and public speaking skills. Participants are challenged to speak on a given topic for one minute without hesitation or repetition. These sessions help build confidence, enhance quick thinking, and sharpen articulation, making them a valuable exercise for personal and professional development.

02 Program Module

- **Mock Interviews:** Mock interview preparation is an essential practice to enhance interview skills and boost confidence. It simulates real interview scenarios, allowing candidates to practice responding to common questions, handling pressure, and refining communication techniques. This exercise helps identify areas of improvement, providing valuable feedback to improve performance, and increase the chances of success in actual interviews.

03 Program Module

- **Presentation Activities:** Presentation activities are designed to enhance communication, public speaking, and presentation skills. Participants prepare and deliver presentations on various topics, helping them build confidence in expressing ideas clearly and engagingly. These activities focus on improving content organization, visual aids usage, body language, and voice modulation, making them crucial for professional and academic success.

04 Program Module

- **Group Discussion Preparation:** Group discussions are interactive sessions that foster effective communication, teamwork, and critical thinking. Participants engage in conversations on a specific topic, sharing perspectives and analyzing various viewpoints. These discussions help improve listening skills, articulate ideas clearly, and develop the ability to collaborate. They are essential for building confidence, leadership, and problem-solving abilities in a group setting.

05 Program Module

- **Resume Building Session:** Resume enhancement sessions focus on improving the structure, content, and overall presentation of resumes. Participants receive personalized feedback on how to highlight their skills, achievements, and experience effectively. These sessions also provide guidance on tailoring resumes to specific job roles, optimizing keywords for Applicant Tracking Systems (ATS), and creating a professional and compelling first impression.

06 Program Module

- **Mock E2E Interview Session:** End-to-end mock interview sessions simulate the entire interview process, providing a thorough preparation experience. Candidates go through each stage, from resume screening and initial interviews to technical and behavioral rounds. These mock sessions include real-time feedback on communication, problem-solving skills, and interview techniques, helping participants gain confidence and refine their responses for actual job interviews.

01 Program Module

- **Multi-Currency and Forex Management:** This module covers multi-currency management, including creating and altering foreign currencies, defining exchange rates, and recording vouchers on both Realization and Un-Realized basis. Learn to adjust Forex Gain/Loss and generate reports involving multiple currencies, streamlining international transactions and reporting for global businesses.

02 Program Module

- **Interest Calculation and Job Order Processing:** Interest calculation in TallyPrime covers simple and compound interest on outstanding balances, along with generating detailed reports. Additionally, Job Order Processing tracks Job Work Out and In Orders, while managing material transfers between godowns. These features ensure comprehensive tracking of financial transactions and job-specific activities, improving operational efficiency and decision-making.

03 Program Module

- **Job Costing and Advanced Banking:** Job costing in TallyPrime helps businesses allocate costs to specific jobs or projects, streamlining expense tracking and improving financial transparency. Advanced banking features, including cheque management, post-dated cheque handling, and e-payments, offer flexibility in managing financial transactions. This module ensures accurate financial records and efficient banking operations, helping businesses manage funds effectively.

04 Program Module

- **Tally.NET and E-Way Bill Management:** Tally.NET features enable remote access, browser-based reports, and data synchronization. This ensures businesses can work from anywhere and access real-time reports. The E-Way Bill management functionality integrates GST e-invoicing, enabling users to record GST-compliant transactions like interstate supply and reverse charge mechanisms, ensuring tax compliance and efficient handling of GST-related tasks.

05 Program Module

- **Tax Deducted at Source (TDS) and Tax Collected at Source (TCS):** TallyPrime simplifies managing TDS transactions, including expenses, capital expenditure, and payments. It allows users to generate and e-file Form 26Q and Form 27Q, ensuring compliance with tax regulations. The system also handles TCS on sales of goods and services, including exemptions, lower tax rates, and e-filing Form 27EQ, maintaining proper records and facilitating timely payments.

06 Program Module

- **Payroll Management and GST Simulation:** Payroll Management in TallyPrime involves creating payroll masters, processing attendance, and generating reports for statutory deductions like PF, Gratuity, and Income Tax. GST simulation allows businesses to practice real-time GST transactions, including e-filing returns, generating e-way bills, and managing GST tax payments. These modules ensure compliance with tax regulations while streamlining payroll and GST.
